*Stephanie Ross: Ms. Ross state that they had received quotes for a fully function tower and a non-functioning tower. No reports have stated that it was unsafe for drinking water. And no one has come forth saying it was an eye sore.

*Shaun Welland: Mr. Welland had a picture of an old water tank that was used in the television program. Please look for attractions like this and appreciate their beauty. Our town has this beauty and we need to appreciate it.

*Sue Brookshire: Mrs. Brookshire held up a copy of the Charlotte Observer that displayed our water tank a couple of months ago. Some people said it was a disgrace for the paper to put this water tank on their front page, that it misrepresented the Town of Mount Gilead. Mrs. Brookshire stated that she had talked to the editor and told her

what some people thought was the reason behind the picture. The editor stated that the picture was taken due to the historic value and charm of the tower. This tower represents the past and the present and they would love for their town to still have a landmark like this.

*Melody Flemming: Mrs. Flemming stated that her Dad was 8 years old when the old water tank was built, now he is 89 years of age. He stated to me he feels like the old water tank, he don't have a purpose anymore. Please let restore for a purpose.

*Jack Boone: A young lad of 10 years old stated how much he enjoyed looking at old antiques that represent our past.

*Rodney McRae: Mr. McRae stated that we all need to blame someone. People express their concerns, some like antiques, some like the past history and we are all part of Mt. Gilead. We are all a team! He still has some questions on keeping the water tank for a backup reserve. I hope we can find a way to save it.

*JoAnne Adams: Ms. Adams has restored 3 properties and now working on one on Main Street. She thanked the Board of Commissioners for their time and patience for letting citizens voice their opinions. She stated that he loves Mount Gilead and the town does have the "CAN DO" spirit.

ITEM V. OLD BUSINESS:

A. Water Tower Demolition

The Town Board reviewed and discussed the proposals from Southern Corrosion. The total on the two proposals was approximately \$130,000. The town does not have the money to maintain this old water tank. The town has other projects that need to be addressed especially with our old water lines and infrastructure.

There were two (2) options on the table: To demo the old water tank or To give the citizens 6 months to raise the money to up keep the old water tank.

Commissioner Mitch Taylor made the motion to go with Option #2 which would to give the citizens 6 months to raise the money. Commissioner Branson Webb agreed 6 months would be fair to the citizens.
