From The Desk Of The Mayor

Sheldon Poplin Morley

"As Mayor, my goal is to ensure that Mount Gilead continues to flourish while maintaining the small-town charm that we all cherish. I'm dedicated to listening to and serving the needs of our community, and I encourage each of you to get involved, share your ideas, and contribute to the growth and success of our town. I am here to amplify your voice, not talk over you."

~Mayor Morley

Mount Gilead Concerned Citizens and Community Watch meet the second Thursday of every month at 7pm. The location varies between the Fire Department and Highland Community Center. If you have any questions please contact Johnny Greene

The town is always looking for Food Trucks to come to town. These food trucks give citizens another option for food. If you are interested in setting up for FREE contact Mollie 910-210-0953 or mlee@mtgileadnc.com

Questions, concerns, ideas? Let Mount Gilead's leaders know!! Town Manager Dylan Haman, the Mayor and Commissioners meet every first Tuesday of the month at 7pm at Highland Community Center, 131 Hoffman Road. During the meeting there is a public comment section that will let you make your concerns known.

Jan 1- New Year's Day

Jan 15- MLK Jr Day

Feb 14- Valentine's Day

PM

DONATIONS ARE WELCOME! THANKS IN ADVANCE FOR YOUR SUPPORT

The Highland Community Center organized their Annual Black History Month Program on February 10th.

This year's theme was "Moving Forward". The event honored Almetta Armstrong and featured Dorothy Bowden Kee as the Guest Speaker. The atmosphere was joyful and the speeches, food, music, and fellowship were all outstanding. If you missed the event, you missed out on something truly special.

Why You Shouldn't Pour Grease Down Your Drains!

Hot grease may seem like an easy fluid to pour down a drain, but as it cools down, it hardens and forms a clog that can be hard to remove. Even if you don't notice it, grease buildup in your pipes can cause blockages and other plumbing issues later on.

If the grease flows into the sewers instead of sticking to the pipes, it can cause even bigger problems. All the oil from households and restaurants in the area combines, forming fatty acids and glycerol over time.

The fatty acids react with calcium in the sewers to form fatbergs, which are soap-like compounds. When the sewer level rises, the fatbergs cling to the sewer ceilings and grow in size, eventually clogging the whole pipe. The size of the fatberg can grow as much as the sewer can accommodate.

To liquefy the grease in your pipes, you can pour boiling water down the drain and run the hot water tap to flush out the melted fat. You should also pour dish soap down the drain with the boiling water, as surfactant molecules help to emulsify oil and water. While hot water and dish soap may help remove the grease from your pipes, it will still end up in the sewer system.

You're off
to great places.

Today is Your Day

Your mountain
is waiting
so get on your way

-Dr. Seuss
